

BTW
25

Bamberg

21st Conference on Database Systems for Business, Technology and Web

March 3 – 7, 2025,
University of Bamberg, Germany

The BTW conference is the most important database conference in the German-speaking area, organized by the Database and Information Retrieval special interest group of the German Informatics Society (GI). Every two years since 1985, it has served as a central forum for the exchange of information between scientists, practitioners, and users on topics of database and information system technology.

Featuring:

- A high-quality, peer-reviewed **research program** (short and long papers) in five topic tracks: **Database Technologies and Systems**, **Text, Semi-structured Data and IR**, **Data Engineering**, **Data Science & Machine Learning**, **Database Languages & Theory**, and **Innovations and Use Cases**, conference proceedings published in Springer LNI
- An **Industry program** on real-world applications of industrial-strength data management systems and experiences
- A **Data Science Challenge** integrated into a semester-long seminar for students and educators
- Interactive **Demonstrations and Poster** session
- Community-driven **Workshops**
- A **Symposium** on **Data Driven Smart City Science and Transferability**, bridging research and applications in the domain of urban transformation, and Smart City Walking Tours

All this in a stunning location, the UNESCO World Heritage Site of Bamberg!
